STUDY GUIDE

WHIMSICAL ART CORNER

WHIMSICAL ART CORNER

Introduction:

Get ready to put your creativity caps on! In this category of the olympiad, delegates will have the opportunity to showcase their artistic talent and unique ideas. But it is not as simple as it sounds. Throughout the rounds, delegates will come face to face with challenges ranging from battling time constraints, having to rely on their teammates to pick up where they left off and racking their brains to figure out the best ways to put the materials available to them to use. This category will test not only your raw talent but also your adaptability, teamwork and planning. May the best artists win!

Round 1:
Delegates will be provided with a collection of fun real-life objects to choose from and will be required to sketch one of them in whatever style they wish in order to test their ability to capture still life.
Delegate cap: 1

Round 2:
Delegates will randomly be provided with a theme. They will then have to make a painting that will depict the essence of that theme to the best of their ability and will also be given a maximum of 2 minutes to explain the meaning behind their art piece. The twist is that only the team member starting the painting will get to see the theme from the chit and they will not be allowed to verbally disclose it to their teammates.The painting has to be passed on to another teammate every 15 minutes and the other teammates will have to go off of whatever has been already painted on the canvas. The contestants may use references but are not allowed to copy an entire painting from the internet.
Delegate cap: 3

R**ound 3:**
Delegates will be required to make a diorama of any scene they want and have it completed by the provided deadline. Contestants will be given a maximum of two minutes to talk about their diorama and asked a few questions about their process.
Delegate cap: 3
